

IUCN World Commission on Environmental Law

WCEL Webinar Series

Webinars 7 & 8

First Judicial Webinar with the Global Judicial Institute on the Environment

Recent Developments in European Environmental Law Jurisprudence

In WCEL Webinars 7 and 8, focused on European Environmental Law, leading academics and judges will give an overview of recent European environmental case law. Supranational courts in Europe, particularly the European Court of Human Rights (ECHR) and the Court of Justice of the European Union (CJEU) have delivered important environmental judgments in recent times. Several national court cases, like the iconic *Urgenda* case on climate change, have also triggered the interest of environmental lawyers, not only in Europe, but globally.
